

**Sudanese Marginalized Forum USA: Condemn the Sudanese Communist Party's Shamed Statement on the bombing of Yarmouk Military Factory as "scandal line support of the Islamo-Arab extremists"**

The Sudanese Communist Party revealed its radical nationalist Arabism face through the statement issued on October 27, 2012, after Yarmouk Military Factory was struck on Oct 23<sup>rd</sup>, the factory that produces banned weapons internationally and was founded and backed by Iran and it supports Hezbollah and Hamas as well as the National Congress Party regime, that classified as countries and organizations sponsor terrorism. The targeted factory that manufactures bombs and long range Weapons including Shihab missiles and banned bombs which have all been used against civilians and innocent children, women and elderly and have continue to destroy all infrastructure causing the displacement and replacement of the population in Nuba Mountains / Southern Kordofan, Darfur, Blue Nile and the all Sudanese marginalized regions..

The Communist Party said in the beginning of its statement regarding Yarmouk the following: **"In a rude evasion of international law and all international norms the State of Israel launched military raid on the capital of our country. We in the Sudanese Communist Party reject and condemn this brutal Israeli aggression and hold Israel responsible for these reckless acts that the Zionist entity used to exercise. We raise our strong voice against the aggression by Israel to our country.**" ( Source Al-Miadan Sudanese Communist party newspaper – and Alrakoba newspaper)

This introduction confirms clearly not only the Sudanese Communist Party's falsified claims of nationalism and proletariat revolution, but the game of roles distribution carried out by Islamists and Arabs to control the leadership of Sudan, they are using the issues of marginalization, genocide, murder, displacement, humanitarian crises, freedom and democracy as "encoding misleading" to mislead the west and specially the US, to enlarge their political pile and climb on the shoulders of the margin, taking advantage of the marginalized people belief and satisfaction on separation between religion and state, through engraining a number of active communist party members in the Sudan Revolutionary Front, as parallel process of re-production policy and policy of divide and rule practiced historically by central radical Islamo- Arab parties. The Sudanese Communist Party have rejected previously in a statement the armed struggle that was endorsed by the Sudan Revolutionary Front, some organizations and movements, and here is the day in a historic scandal that reveals the Sudanese Communist Party's mask in the name of nationalism, freedoms and democracy by issuing a statement that carries in its content the same as what came out by National Congress, Hamas, Iran and the Muslim Brotherhood statements after striking Yarmouk. At the mean time the Sudanese Marginalized people believe that destroying the NCP military capabilities and weapons banned internationally in addition to the Air Force and airstrips used by the National Congress party for targeting citizens, is considered a positive indicators to stop targeting citizenship and an entrance to accelerate the

departure of the NCP regime to build a new Sudan through fair democracy and constitution which all citizens should be equal in rights and duties.

No surprise that the Sudanese Communist Party issued that statement, as we know the mother and father of the communism represented in the global states by the Soviet Union and China are both standing now and strongly with genocidal regime in Khartoum via military support by providing Antonov and other military aircrafts, heavy weapons and bombs, beside investments and economic support and their stand beside the Sudanese terrorism regime internationally, despite the fact that the NCP leaders were indicted and wanted by the ICC for genocide, war crimes and crimes against humanity.

The Sudanese marginalized forum as a civil society Organization in America that has an extensive international relations ensure to the marginalized people who are suffering under the caves, displacement and refugee camps and around the world that, the Forum would remain vigilant and won't let any big or small issue threatening the lives of their people pass in vain and will expose all the conspiracy that is hatched against their own people.

Revolution until victory....
